Local Testimonial

In the past we'd really struggled filling roles for our IT department and found the process to be time consuming and unrewarding. A speculative email from Senitor changed that. They quickly responded to our needs and found candidates of the right calibre. The whole process was straight forward and within a couple of weeks of our first contact with them we had a new developer join the team. I would have no hesitation in recommending them to other businesses.

Neil Wilks, Operations Manager, Auger Site Investigations Ltd T/A Auger

Please call **Charlotte Attwood** or **David Atherton** on **0161 486 1599** to arrange an interview with any of the above candidates or to discuss your requirements further.
