**Local Testimonial**

	<p>When I contacted Senitor to look for a candidate for us I wasn't very hopeful of them being able to fill the role. We had a very specific set of requirements (budget, start date, locality etc) and needed someone very quickly with the right experience. Within a couple of days' they had a candidate on site for interview.</p> <p><b>Tim Berryman, IT Manager, Guttridge Ltd</b></p>
