Danny	UX / UI Designer	UX / UI, Sketch, Figma, InVision, Zeplin, Photoshop, Illustrator, InDesign, WordPress, NPM, HTML, CSS	£300 per day

**Local Testimonial**

 <p><b>FULFILMENT</b></p>  	<p>Senitor approached us whilst we were already recruiting for a Systems Administrator and working with a number of other agencies who were struggling to acquire the right candidate. They were able to provide us with a number of candidates who we interviewed and out of these we were able to select an excellent candidate for the role. Senitor has continuously shown a clear understanding of both our own needs and expectations along with the candidates. They only ever submitted candidates who matched our profile ensuring we wasted no time whatsoever. With the recruitment exercise over it is a testament to Senitor just how well our new Systems Administrator is doing and how much he is contributing to the team.</p> <p><b>Jackie Wilson, Office Manager, iFulfilment</b></p>
