Local Testimonial

	<p>I have worked with Jack at Senitor to help recruit both Product Managers and Developers into our technical team. The relevancy of the candidates he put forward were excellent, mainly because he took the time to understand our requirements, our company, and our culture. Great levels of efficiency were maintained throughout the entire recruitment process. On top of this, levels of communication were superb and he was easy to get along with on a personal level</p>
